Crochet plant pot holder

A simple gift idea!

You will need:

- A clean tin can. I used a baked beans tin.
- Scraps of yarn, I used some old 'boodles' t-shirt yarn.
- Scissors, tapestry needle.
- A suitable size hook for your yarn, I used a size 8mm

The Pattern:

UK terms: The only stitches used are a double crochet (dc) and a slip stitch (ss)

US terms: The only stitches used are a single crochet (sc) and a slip stitch (ss)

Pattern Notes

This pattern will differ depending on yarn and hook size. I have written this based on you using a chunky t-shirt yarn and an 8mm hook.

Begin by:

...crocheting 6dc into a ring. Or, as I do ch3 and crochet 6dc into 2nd ch from hook, ss to join ch1 (6 sts) *ch does not count as a stitch in this and every other row*

1. 2 dc into each stitch around, ss to join ch1 (12 sts)
2. 2 dc into first stitch, 1dc into next stitch, repeat around, ss to join, ch1. (18 sts)
3. 1dc into the front loop only around, join with a ss, ch1 (18 sts)
4. 1dc into each stitch around, join with a ss, ch1.
5. repeat round 4 until the exterior of tin is covered... Colour changes are optional.

Top Tip: place empty tin inside, as your work progress to see how many rows your tin will need.

To make up

Fasten off, but be sure to leave a long tail, which you can thread up and sew as a decorative stitch around the tin, using the rows as a guide. I used a simple running stitch...

Then simply pot up a plant!
